### CCA Board Update with Edgewater Resources

**O**n March 29, 2016, the Charlotte Community Association (CCA) Board of Directors met with Mr. Greg Weykamp, President of Edgewater Resources, to discuss the latest plans and timing for the Port of Rochester Mixed Use Development Project, at his request. On April 6<sup>th</sup>, the Board submitted a letter to City of Rochester Mayor Lovely A. Warren, City Council and key City of Rochester Staff to communicate the outcome of those discussions and to determine if there is any other information that the City can share with us at this time.

It is the Board's intention to share this information with our members and residents, to keep them abreast of the project deliverables. Below are the key points of the Board's letter along with a request for follow up.

"Mr. Weykamp's last update to the Charlotte community was at the CCA meeting on June 1, 2015, when he reported to us that the building would be 12 stories tall, and located in the original Phase I location, adjacent to the marina (see diagram from the City website, below ).

Listed here are the key points that Mr. Weykamp shared with our Board on March 29, 2016:

- ◆ Current plans are for a 10-story building that will be built on the northwest corner of Corrigan Street and Lake Avenue. This is a change from the original Phase 1 location. He showed us a rough drawing but said that the final design is not completed yet.
- ◆ Included will be a hotel and spa, condominiums, townhomes, retail stores and 2 restaurants.
- ◆ Above the 2-story plinth will be patios/green spaces that will be open to the public.
- ◆ Underground parking for 135 vehicles for hotel employees, residents, and businesses.

- ◆ Construction of this first building will take 18 months to 2 years to complete.
- ◆ Submissions to the City of Rochester by the end of April, 2016 will include:
  - Land Disposition Agreement (LDA)
  - Revised Site Plan
- ◆ Funding is not yet completed; he is still planning on approximately 20-30% funding from EB-5.
- ◆ Expecting construction to begin this summer, but not until July.

*(Edgewater Update continued from page 1)*

The overall plans still include Phase 2 and 3 for construction of 2 additional high-rise buildings, one to the south of the first building and one to the southeast. The main public walkway that will run east to west in between the buildings from Lake Ave. to the marina will probably not be constructed until the other buildings are completed.

Mr. Weykamp said that he will be returning to Rochester for a visit in about 6 weeks or less, and the Board invited him to present his plans to the community at the May 2<sup>nd</sup> CCA meeting. He also agreed to post the updates to the Waterfront Rochester website that we can then link to from our CCA website.

The CCA Board would like to hear from the City regarding its understanding of these points and milestones. We would also like to highlight the following concerns our community has about the process and the project going forward and request that someone from the City respond:

1. The movement of Phase 1 location from the northeast corner of Parcel 1 to the northwest corner, directly on Lake Avenue. That is a change from any of the plans we've been shown over the past two years. What are the approval requirements for such a change?
2. Adequacy of 135 underground parking spots to support the hotel, tenants and businesses. How is it determined to be enough parking, and are the spaces going to be restricted and regulated to only patrons of that building?
3. The construction will displace the current parking on Parcel 1 that's available to patrons of the businesses on the west side of Lake Avenue. What is the City's plan to provide alternative pockets of parking for them? How will the City ensure that the construction will not further disrupt or displace the remaining north parking lot nearest the beach?
4. Timing of approval and subsequent construction projects. Mr. Weykamp stated that his documents will be submitted to the appropriate City departments by the end of April. If so, what are the next steps and what is the timing to arrive at final approval?
5. Will there be further community review processes before the final approval is given? Will the community have an opportunity to see the final design plans and give feedback to you before the LDA is approved?
6. We continue to see a general communication void between the Charlotte community at-large, the City of Rochester and Edgewater Resources regarding this important project, and would like to know what can be done to close the gap and keep the residents informed.

We would appreciate a prompt reply that addresses our questions and concerns directly. We also take this opportunity to invite representatives from the City to update our residents on this important issue at our May 2<sup>nd</sup> or June 6<sup>th</sup> CCA Meeting at the Roger Robach Community Center."

The Board will communicate updates to the Charlotte community as we receive them.

## Pythodd Jazz Room Restaurant & Bar

By Jonathan Hardin

**M**y husband and I decided try out the Pythodd Jazz Room, a newly opened dining establishment in our neighborhood, located on Lake Avenue at the corner of Hincer Street. We experienced incredible food and service along with the bonus of live music, which is available Wednesdays through Sundays starting at 7:30 PM.

After such a positive event, we decided to invite a group of friends to meet us there for appetizers and wine. Our order included the shrimp cocktail (unbelievably large and extremely fresh), crab cakes with a zesty dipping sauce, pork nachos, and chicken nachos. We all enjoyed the entire occasion from the selection of wines and delicious food, the attentive and accommodating staff and the live music. Several of them have already returned to the restaurant with others to share their enjoyable experience.

We highly recommend the Pythodd Jazz Room Restaurant & Bar as a place to stop for dinner, hors d'oeuvres, or just unwind after a long day with a drink and live music.

State Budget Delivers Property Tax Relief

It is no secret that New York’s high property taxes impose major burdens on hardworking homeowners, as well as senior citizens who are struggling to make ends meet.

With this in mind, I have been working to help reduce property taxes, and to provide real relief for our local families and seniors. The new 2015-16 budget will build upon this progress in three important ways:

**1. Property Tax Freeze Rebate Checks**

For the second consecutive year, the new State Budget will deliver new -- and much larger -- property tax freeze rebate checks in the mail to millions of homeowners.

**2. Record Funding for STAR**

The new 2015-16 State Budget provides \$3.2 billion to help fully fund STAR and Enhanced STAR -- two outstanding programs which deliver major tax relief to millions of middle class families and seniors each year.

**3. An increase in State Education Aid of Approximately \$1.4 billion**

The new Budget provides a state school aid increase of approximately \$1.4 billion. This major funding increase is not only great news for our local schools, teachers and children across the state – but it will also help to reduce pressure at the local level for property tax increases.

These three key elements of this year’s new State Budget will ensure that millions of hardworking New Yorkers and their families will see meaningful property tax relief this year -- helping them save, invest in their futures, and pursue their dreams and aspirations.

**R**ochester's new "Celebrate City Living" campaign comes at a great time; it's finally spring, there's a renewed interest in urban living and Charlotte is positioned to take advantage of those looking for a place to live that is stable, vibrant and friendly. Thanks to the Charlotte Community Association (CCA), the city has chosen Charlotte to be one of its focus neighborhoods with a June event that will bring interested homebuyers into the community to see for themselves what a great place it is to live in and raise a family.

As Rochesterians, the long dreary winters can foster some negativity relative to other locations. What we may fail to recognize are Charlotte's assets including its proximity to the beach, the scenic Genesee River Trail that winds its way along its eastern border and a varied and attractive housing stock that makes it a hidden gem within city neighborhoods. Now is the time to get the word out and Celebrate City Living here in Charlotte!

There are neighborhoods in the city where young families are being priced out of the market; among a few of the latest are the Neighborhood of the Arts, Swillburg and Highland Neighbors.

Let's showcase Charlotte's great night life, high-quality affordable housing and, hands down, the best park and trails! Please join me, the CCA and other neighborhood leaders at the Celebrate City Living in Charlotte event on Saturday, June 25, from 11-2 as we show our pride in Charlotte, put our best foot forward, and become the next "In" place to live!
